

Welcome to ASU!

Our organization is a great platform to ready you for the future, and it gives you the opportunity to get in contact with companies eager to offer internships and full-time careers. Now is the time to really shine! Get behind-the-scenes industry tours from companies like Amazon or GoDaddy, and volunteer for local charities that provide transportation, lunch, and merch!

Collegiate chapters are different from high school DECA in that they are completely student led. This gives us the opportunity to truly make a difference! Students from any major college can join, with no mandatory classes that you have to take when you join. Whatever your major, I wholeheartedly recommend joining. You will gain crucial networking and interviewing skills, leadership experience, as well as the support and friendship of other members.

Our meetings are held at the Tempe campus twice a month, where there are fun new people to meet and food to eat! If you are attending other ASU campuses, let us know! Collegiate DECA at ASU is an award-winning chapter, the largest in the state, and we love to attend as many competitions as possible to place at the International level.

We hope to see you at a meeting soon! We would love to meet you and help you have a #LIMITLESS year!

Sincerely,

Collegiate DECA at Arizona State University
